CEO/President: (Captain) Katharine Sweeney

THE COMPANY:

Compliance Maritime was founded by Captain Katharine Sweeney in 2010 and has since provided over 400 International Safety Management (ISM) audits and more than 300 vessel security audits. Compliance Maritime is a certified Woman Owned Small Business (WOSB). Clients consist of several key players in the industry, however each and every audit is confidential, and treated as such.

THE CASE:

Compliance Maritime auditors are certified, insured and current USCG licensed Master Mariners with 150 years of combined experience on a large variety of vessel types. They are all certified American Waterways' Responsible Carrier Program (AWO RCP) Lead Auditors as well as certified International Standards Organization (ISO) 9001 (Quality) and 14001 (Environmental) Lead Auditors, giving them an understanding of the foundation on which ISM and Subchapter M were based. Safety management is the game changer for the industry. Compliance Maritime provides internal and third party Safety Management System auditing by seasoned master mariners for towing as well as all types of vessels. Compliance Maritime auditors are committed to treating clients with respect and helping them to improve their businesses.

Chairman of the Board: H. Elder Brown, Jr.

THE COMPANY:

Continental Underwriters, Ltd. is a national, multiline firm for all types of marine coverage. The firm offers both admitted and non-admitted products in 50 states with affordable, broad terms and conditions for even the most unusual and complex risks. Continental's 45 years of success ensures that insureds receive extensive access, and tailor-made coverage from experienced brokers and underwriters. Continental is part of the FGH family of companies.

THE CASE:

Founded in 1970, CUL is the nation's largest brown water Marine Insurance underwriting firm. Expanding product lines and market leading capacity ensures quality service and security. CUL's Master Port Risk Program provides commercial operators, mortgagees and other interested parties an economical way to insure their stacked equipment during difficult economic periods. Under the program, insureds have the opportunity to remove their vessels from a navigating policy at a greatly reduced cost. As the offshore industry retrenches in a challenging climate, the option provides OSV operators with new tools to save money in a responsible fashion.
